

January 2026

## DECLARATION

It is hereby declared that the copper tube **SMISOL® Più**, manufactured by Serravalle Copper Tubes S.r.l. (SCT), is produced in accordance with the following standard:

- **EN 1057** – Copper and copper alloys – Seamless, round copper tubes for water and gas in sanitary and heating applications

**SMISOL® Più** is made of phosphorus-deoxidized copper with a minimum copper content of 99.9% (CW024A – Cu-DHP).

The product is factory-coated with a continuous **PVC sheath with star-shaped cross-section**, suitable for potable water applications, liquid and gaseous fuel distribution, and heating systems.

During manufacture, the tubes are subjected to a treatment for passivation and stabilization of the internal surfaces, ensuring full compliance with European legislation on drinking water quality:

- **Directive (EU) 2020/2184** – Quality of water intended for human consumption

Due to these characteristics, **SMISOL® Più** is suitable for the following applications:

- Distribution of potable water
- Distribution of liquid and gaseous fuels, including underground installations, in compliance
- Heating systems

The product shall be installed in accordance with applicable national and local regulations.
